T-FLOLOC™ - 2% Tetra-EDTA Flush and Lock Solution

the PREMIUM catheter flushing and locking solution offering both patency and infection control

Provides Broad-Spectrum Activity

effective against gram positive & gram-negative bacteria and fungi associated with catheter-related infections

Prevents and Eradicates Biofilm

eliminates protected microbial colonization of catheters effectively reducing the risk of catheter-related infection

Effective Anticoagulant

promotes catheter patency; avoids systemic anticoagulation associated with heparin

Favorable Safety Profile

non-toxic; no topical or systemic effects are known

No Development of Resistance

does not induce development of drug-resistant bacterial strains
